Storage:

Oil should be stored in original, tightly closed container and kept away from direct heat and sunlight.

To limit oxidation the contents of the container should all be used once opened. Otherwise container should be tightly closed each time the container is opened and the oil re-tested before use.

Shelf Life:

Ultimately the shelf life is dependant upon proper packaging and storage.

When stored with advised conditions, re-test after 12 months then at 3 monthly intervals up to a maximum life of 36 months.
